Air Diffuser Replacement

OXYFLEX

The **OXYFLEX air diffusers** used in aeration basins at wastewater treatment plants require strict maintenance procedures to optimize their lifespan.

Stereau Equipements et Services a specialized division of Stereau, is responsible for critical equipment and maintenance and serves as the exclusive distributor of OXYFLEX air diffusers from SUPRATEC.

As part of its services, Stereau Equipements and Services offers plant operators the option to handle the supply and supervision of the installation of these diffusers as part of planned renewal plans.

This service includes

- Supply of air diffusers and all necessary accessories for installation
- Transport and delivery to the site
- A mounting guide
- A certificate of origin
- Site supervision, with:
 - Presence of our experts on-site for 3 to 5 consecutive days
 - Conducting bubble tests
 - Provision of a final installation report
- Operator training

This service, conducted by the experts at Stereau Equipements and Services, guarantees optimized installation and operation of the air diffusers, ensuring uninterrupted service through planned renewal scheduling.
